

## Pre Amble:

Good Morning / Good Evening, Welcome to the *Morning / Evening* session of the Caribbean Emergency and Weather Net for Day / Month / Date / Year.

I am Net Control Station {*Your Call-Sign*} located, {*your QTH and Country location*} and my name is {*operator's name-spell phonetically*}

The Net meets twice daily on this frequency of 3.815 MHz Lower Side Band at 6:30 a.m / 6:30 p.m local time in the Eastern Caribbean, or 1030 / 2230 hours UTC.

### **The purpose of this net is to handle all forms of Amateur Radio traffic.**

The net will call for Emergency or Priority traffic at its Start; and any stations that may be holding Emergency or Priority traffic, are invited to break-in at any time.

Official weather reports will be presented five minutes after the net commences {*@1035 / 2235 hours UTC*}, and this will be followed by any personal weather observations.

## Format:

**Call each line item twice, and ask once if there are any relays**

### Net Start and Roll Call:

Now inviting stations holding "Emergency or Priority" traffic x 2

Inviting Maritime Mobiles, Aeronautical Mobiles, Mobile Stations x 2

Inviting stations operating on 'Low Power', those operating under 'difficult circumstances' x 2

Inviting stations on 'Short Time' unable to stay for the duration of this Caribbean Emergency and Weather Net { x 2 or until no further response }

Inviting check-ins from the region as per country list. [Kindly identify as the "Caribbean Emergency and Weather Net", as you call each country and its dependents.

Also please remember to identify with your call-sign every few minutes of the net's operation]

After completion of the roll-call; invite stations from ANYWHERE in the island chain to check-in.

Read your list of check-ins (give totals) for the benefit of the assembly, do any weather report recap as needed and then take "Late Check-ins / Any other traffic.

Remind operators of the next scheduled NET session / Net Control Station or Country assigned. Note the time and close the net.
